**Classes offered for a current or upcoming semester?**

To find courses "offered" in a current or next semester there are two options:

a. an online "printed" catalog: <http://www.udel.edu/registrar/regbook.html>

b. an online search tool: <http://primus.nss.udel.edu/CoursesSearch/>

Using this tool you can find specific courses that would count as DLE, multicultural, honors and second writing requirements

**For all course listings and descriptions only** - for animal and food sciences, look under "**Browse Course Descriptions**" choose "animal and food sciences" on the right side of the "by subject" category, click "**submit**"

**What should I do if I want to change my major within the department or out of the department?**

- 1) Switching within the department: contact and discuss this with your advisor
- 2) Switching to another major: you should apply to the new major directly

**How do I switch advisors within the department?**
