

Workshops for the Home Gardener

WINTER 2011

GARDEN LINE LIVE • Thursday, January 13, 6-8 p.m. Expert Panel • \$5

Have you ever called our Garden Line (831-8862)? Master Gardeners who have operated our Garden Line and responded to hundreds of queries each growing season will be present to answer questions concerning plant selection, vegetable gardening, landscape maintenance, insect/disease identification and management, and lawn. Bring your questions!

VINES AND ESPALIERS • Thursday, February 10, 7-9 p.m. Tom Maddux • \$15

Vertical gardening is fun and can produce desirable results. Vines and espaliers are often what are missing, learn how to add height to your garden, and bring the flowers closer to your nose.

PREPARE YOUR LANDSCAPE FOR SPRING Wednesday, February 16, 7-9 p.m. Frank Ebright and Rob Medicus • \$15

Are you prepared for Spring? Frank and Rob will help take the guess work out of your Spring to-do list, discussing topics such as landscape clean-up, plant pruning, insect and disease monitoring and control, early vegetable and ornamental plantings, and lawn maintenance.

STARTING YOUR VEGETABLE GARDEN • February 23, 7-9 p.m. Clyde Roberts • \$15

Would you like to grow your own vegetables and experience the fresh taste of your own harvest? Our beginner workshop is for those who are planning their first garden. We will discuss site selection, soil amendments, vegetable varieties, and other topics that will help you get started.

Registration is required; payment collected at the door. All workshops are held at the New Castle County Extension Office. Contact our Extension Office 302-831-COOP, or e-mail Carrie Murphy, Horticulture Agent, cjmurphy@udel.edu to register.

In the event of inclement weather, visit our website for notice of cancellation <https://ag.udel.edu/nccmg>.
