Cooperative Extension Education in Agriculture and Home Economics-
University of Delaware, Delaware State University and the United States
Department of Agriculture cooperating. Distributed in furtherance of Acts
of Congress of May 8 and June 30, 1914. It is the policy of the Delaware
Cooperative Extension System that no person shall be subjected to dis-
crimination on the grounds of race, color, sex, disability, age or national
origin.

New Castle County Master Gardeners
University of Delaware
461 Wyoming Road, #131
Newark, DE 19716-1303

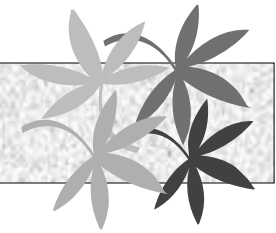

New Castle County Master Gardener volunteers are a vital link in an educational chain that begins with research from the University of Delaware and the horticultural industry. University of Delaware Cooperative Extension specialists translate this research into practical methods that can be used by Delaware gardeners. New Castle County Master Gardeners play a key role in disseminating this knowledge to county residents.

A Master Gardener from the Speaker Bureau is available to come to your organization and present a lecture for up to one hour on a topic of your choice.

A suggested donation of \$50 is appreciated to help support other Master Gardener educational initiatives.
