

Section 2(ee) Recommendation

Date: January 18, 2005

Products: Quadris Flowable Fungicide
EPA Reg. No. 100-1098

Use: For control of soybean rust with Quadris Flowable Fungicide at a reduced rate in combination with a triazole fungicide

States: AL, AR, CO, DE, FL, GA, IA, IL, KS, KY, LA, MD, MI, MN, MO, MS, NC, ND, NE, NJ, NM, NY, OH, OK, PA, SC, SD, TN, VA, WI, WV and WY

This recommendation is made under authority of FIFRA Section 2(ee) and recommends the use of Quadris Flowable Fungicide at a reduced rate in combination with a triazole fungicide, such as Tilt, for the control of soybean rust (*Phakopsora pachyrhizi*) in soybeans. The user must refer to the federally approved labels for Quadris Flowable Fungicide and the triazole fungicide tank mix partner and read and follow all directions for use, restrictions, and precautions.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Soybean Rust: Apply 4 oz Quadris Flowable Fungicide product per acre in combination with a full label rate of an approved triazole fungicide. Apply when disease incidence is 0-2% in the lower canopy of the soybean plants.

Do not apply more than two strobilurin applications per season.

Do not apply more than 2.88 quarts of Quadris Flowable Fungicide/crop/acre/season (1.5 lbs. a.i./A).

Do not apply within 30 days of harvest.

The user must refer to the federally approved label and read and follow all directions for use, restrictions, and precautions.

The user should have this recommendation in its possession at the time of use.

This recommendation is made as permitted by Section 2(ee) of FIFRA and has not been submitted to or approved by the EPA.
