

StatLab

2012 Spring Schedule

The Statistical Laboratory (StatLab) is currently open for Spring 2012. The StatLab provides statistical consulting services to graduate students, faculty, staff, and researchers throughout the University, as well as non-University agencies and companies.

The laboratory is staffed with a director and an experienced graduate student. An advisory committee, consisting of university statisticians, research methodologists from various disciplines, and subject matter specialists from industry provide additional support.

Services of the Statistical Laboratory. The StatLab is designed to help researchers in the use of effective and appropriate statistical techniques in the analysis of data, including assistance in:

Research Design– Assistance prior to conducting research

Statistical Analysis – Assistance in identifying methods for analyzing data

Statistical Computing – Assistance in the selection of statistical packages and interpretation of statistical output

Grant Application and Participation – Assistance in the statistical component of grant proposals

Users are strongly encouraged to visit the Statistical Laboratory *prior* to collecting their data attempting to conduct an analysis. Initial consultation (max 2 hours) is free for UD Faculty, Staff and Graduate Students.

For Assistance:
