First-Semester Schedule for
Plant Protection majors

You may find that you are already registered in several of these courses. That was done to ensure you got a seat in courses needed for the major. Do not drop any course in which you are already registered, unless you speak to an advisor first.

- ENWC 165 or PLSC 171  New Student Seminar (1 cr.)
- PLSC 101  Botany (4 cr.)
- MATH 010, 115 or 221  Math course based on level (3 cr.)*
- CHEM 101 or 103  General Chemistry (4 cr.)^
- Choice of Social Sciences and Humanities course (3 cr.) – See list below.

*Math course depends on placement. If you placed in Level I on the Math Placement Test, you are strongly encouraged to take MATH 010 in the Fall term. Although this is a non-credit course, it is the proper preparation to ensure you are ready to continue in your math sequence. Although it does not count toward graduation, the credits (3) are counted toward your full-time load in the semester. If you choose to enter a higher level of MATH, you do so at your own risk. If you enroll in MATH 010 in the Fall term, you should take CHEM 101, not CHEM 103.

^ See UD Catalog and course descriptions for difference between CHEM 101 and 103 (link is below.)

For assistance with course selection and advisement, please contact:
Dr. Jake Bowman  jlbowman@udel.edu  (302) 831-4261
Dr. Dave Frey  dfrey@udel.edu  (302) 831-1377
Ms. Karen Aniunas  kra@udel.edu  (302) 831-2508
