

Qiang Liu

☒Visiting scientist☒

Education

B.S., Plant Nutrient—1995

Gansu Agriculture University, China.

M.S. Soil Science--1998, Gansu State Farms
Academy of Agriculture Research, China.

Thesis—"Adsorptive features of effective phosphate
on seven major Gansu soils"

Research

My research currently focuses on Colloids transport behavior in porous media, mainly on the mechanisms of colloids retention and release in saturated condition.
