

## **Glycerol Stocks of Rlv 3841 and Rlv 22**

Made glycerol stocks from the liquid cultures started last night according to Vinata's protocol. Used Vinata's sterile 50% glycerol:

1. Pipet 500 uL of sterile 50% glycerol into sterile tubes
2. Pipet 500 uL of liquid culture into the sterile tube.
3. Vortex 30 seconds to mix the glycerol and the bacteria
4. Store at -80
