

What exactly is Hypertufa?

Hypertufa garden pots are unique , handmade vessels created by combining peat moss, quick set cement, perlite and or vermiculite . They can be formed into many different container shapes, or made into garden art.

Nestled in a leafy niche, a hypertufa pot or object will make a one of a kind addition to your garden landscape.

Five hypertufa pots, made by Sussex County Master Gardeners will be raffled at the end of the open house.

Raffle tickets are \$2 each or 3 for \$5
Drawing will be held at 2 p.m. on July 18
