

Instructions for submitting a NEW or OLDER than 3 YEARS Protocol for Review:

1. No agricultural animal usage may occur within the University of Delaware without prior authorization by the AACUC. Authorization is based upon AACUC evaluation of written procedures for research and teaching and information on animal numbers and animal care submitted by principal investigators, research professionals, and course/outreach instructors within the University of Delaware.
2. If you need AACUC approval for a new protocol or your previous approval is over 3 years old, you must complete a 3 Year New/Renewal form.
3. A common form for teaching, research and outreach is now available.
4. All forms must be completed and submitted electronically.

These protocols require a review from the full committee.

Instructions for submitting a Continuing Approval of Protocol currently approved by the full committee (for additional projects under the previous approved protocol)

1. If you are submitting approval for a continuing protocol that is within 3 years of the original full committee protocol approval, you must submit a Continuing Approval of Protocol form. This form only requires approval from the committee secretary.
2. All forms must be completed and submitted electronically.
